The G.A.P Network would like to offer you the opportunity to support your coalition members and/or staff. The supervisor training, is a 24-hour (3-day) credentialed training with a curriculum that addresses supervisory skills that will support the work of the Peer Support Professional (PSP), including creating a supportive environment, maintaining fidelity and accountability to the PSP role, workplace wellness, and opportunities for growth and advancement. This curriculum addresses supervisory skills that will support the work of the PSP, including creating a supportive environment, maintaining fidelity and accountability to the PSP role, workplace wellness, and opportunities for growth and advancement. Suggested strategies, best practices and tools are provided for use in individual supervision. This virtual training is only for those in leadership looking to support members of their team that currently hold the peer support credential and limited to only 15 participants.
