JOIN US FOR A TRAINING

Foundations of Prevention

"Without building a solid foundation, you'll have trouble creating anything of value."

The Foundations of Prevention is designed to provide a broad overview of prevention and create a solid foundation for work in the field. It is a great course for both those new to the field and veterans alike. In this four day course, participants will engage in hands on activities, group discussions, and small group work to help them better understand the field of prevention.

Attendees are required to attend all 4 days of Foundations in Prevention.

Lunch will be provided each day.
28 Prevention CEUs have been applied toward this training.
