

Training in Action: A Facilitated Conversation
 Prevention Action & Advocacy Summit: Vaping
 December 5, 2019

This tool will help identify strategies for using the information you learned today to improve your work. Taking what you have learned today and linking it to actionable steps can create more meaningful translations to your work.

Session learning objectives: <i>(Found in your program.)</i>	Key take-aways: <i>(List what you found useful and is applicable to your work.)</i>	Implementation in work: <i>(List two ways will you incorporate each key take-aways into your work.)</i>	Questions or follow-up needed: <i>(List what support to be done to accomplish implementation.)</i>
Example: Understand basic components of an e-cigarette device.	Rechargeable battery, atomizing device, inhaler, cartridge	<ul style="list-style-type: none"> • Create infographic for dentists that includes the components of an e-cigarette. • Update slides with new terminology. 	<ul style="list-style-type: none"> • Research to see if there are other components I am missing. • Find out what are the main components of the cartridge liquid.
